

Sprint Plan 3					
Group A					
User story	Task	Task assigned to	Estimated effort (Hours)	Priority (scale 1-5; low to high)	Notes
A User wants an easy way of using the GUI, including easy file selecting and format selecting and output.	Make it possible to drop in files	Daan	2	3	
	Make files in drop in block with same format	Daan	5	3	
	Cleaning up GUI	Daan/Adam	4	3	
As a product owner, I want to have a product vision from the group that creates my product, so we can determine whether what I need/expect is understood.	Product Planning final version maken	Lizzy/Bjorn	4	5	
As a product owner, I want to have an emergent architecture design from the group that creates my product, so that I can keep track of the design goals and architecture.	Update emergent architecture design	Martijn	3	4	
As a User I want the program to do be able to manipulate the data selected via the GUI	Create mock control module	Bjorn/Lizzy	5	3	
	Make calls to parsers	Bjorn/Lizzy	3	4	
	Make a toString() for datastructure	Martijn	2	3	
	Check with Wenxin if scripting language is understandable	Martijn	1	4	
	Integrate parse module	Adam	8	5	
	Create minimal output module	Martijn	8	4	
Justification of priorities					
The product vision is basis of the project, so we have a clear foundation of what our product will be. And as that is build, we want to be at a stage where we have a working demo. So we can deeper analyse what our customer needs are.
