Sprint Plan 2					
Group A					
User story	Task	Task assigned to	Estimated effort (Hours)	Priority (scale 1-5; low to high)	Notes
As an user, I want to have a product which data is internally structured as covenient as possible.	Datastructuur Implementeren voor data	Martijn	4	3	
As a product owner, I want to have a product vision from the group that creates my product, so we can determine whether what I need/expect is understood.	Product Vision afmaken	Bjorn&Lizzy	2	5	
	Product Planning draft maken	Lizzy&Bjorn	3	5	
As an user, I want the application to accept and handle txt input files.	Create configuration XML files for specifying the structure of the input files	Adam/Daan	4	5	
	Parse file based on xml configuration	Adam/Daan	6	5	
	Objectify parsed file into internal structure	Adam/Daan/Martijn	3	3	
As a user, I want to be able to use this stand alone program easily. Hopefully with a beautiful interface, which will make interaction with the program a lot easier for me.	Een scripting language opstellen voor instructies	Martijn	4	3	
	Design several possible UI	Daan&Lizzy	3	4	
	Make skeleton for UI	Daan&Lizzy	3	3	
Justification of priorities					
The product vision is basis of the project, so we have a clear foundation of what our product will be. And as that is build, we want to be at a stage where we have a working demo. So we can deeper analyse what our customer needs are.
